LOGAN, CACHE COUNTY, UTAH, THURSDAY, OCTOBER 5, 1916

FOURTEENTH YEAR

## SCHOOL WORK AT HYDE PARK IN FULL SWING

Hyde Park, Oct. 2.—The district schools here are in full swing, with an efficient corps of teachers who are doing a good work. Mr. Leonidas Hickman is principal with Homer Hyde, Eva Lee, Daisy Jobe and Mary A. Grant, as assistants. School will doubtless close some time during the present month so that the children can assist in harvesting the beet crop.

A large number of students are attending the B. Y. College and the Smithfield High School.

The rain of the last few days is very welcome to the farmers, especially the dry farmers, as they were afraid the grain would not get the usual fall growth.

Beet digging commenced last week, but had to cease because of a lack of cars. The beet crop is very good and during the next two months thousands of tons will be harvested here.

The Hyde Park farmers have less hay this year than they have had for many years. Many are selling off their surplus stock in order to have enough feed for the others.

The snow in the mountains reminds us that on the morning of October 3, 1913, we had three inches of snow, which added to the heavy apple and other fruit crops, broke down many branches of the trees, and did quite a lot of damage. A long fine fall followed.

A great many Hyde Parkers attended the county fair, and as usual carried off a good share of blue and red ribbons.

At conjoint session of the M. I. A. held Sunday evening, Mr. Woods of the M. I. A. stake board, gave a very interesting talk upon scout work, and the proper training of the young people.

The Hyde Park band played to a full house in Wellsville last Saturday night.

Since last writing, babies have arrived at the homes of the following: Mrs. Thomas Parks, a boy; Mrs. Adam Nielsen, a boy and Mrs. Wilford Nielsen, a girl. All concerned are doing fine.

At Sabbath School last Sunday we had as visitors A. E. Bowen, Chas. England, J. E. Hyde, and Frank Haugh.

Mr. Junius Christensen is moving up to Lewiston for the winter. He has a position in the office of the sugar factory.

Mr. Joseph Jones will also work in the factory during the campaign.

Mrs. H. W. Hancey and daughter Thelma, are visiting with her daughter, Mrs. Ruby Milligan, at Lewiston.

Bishop Charles Hyde had a valuable colt killed last night upon the O. S. L. track.

Our nimrods have returned home the last two days with tired legs, wet clothes and an occasional duck.

## MARGUERITE CLARK IN "LITTLE LADY EILEEN"

Following her thrilling romance in Silks and Satins, Little Marguerite Clark is starred by the Famous Players Film Company in an entirely new environment as Little Lady Eileen. The scenes of this quaint little play are laid on the Emerald Isle where Miss Clark has an opportunity to introduce on the screen a new character that of a typical little Irish lassie who is an unperturbed believer in fairies. Miss Clark has a notable cast in her support, including Maggie Hollowell Fisher, John L. Shine, Russell Bassett, Harry Lee, and Vernon Steele.

J. Searle Dawley, who has directed Marguerite Clark in the majority of her successes for the Famous Players, is the director of this delightful photoplay which is to be released on the Paramount Program at the Lyric theater tonight.

## Sound Body and Mind.

Not all the battles have been fought with the sword and shield, not all rebellions have been struggled out on the field of battle, not all achievements reached by the nobility. Men have come to realize that sound bodies and minds are of less importance than sound spirits.

Call at this office and get a big bundle of old newspapers for a nickel.

## DIGGING BEETS AT MENDON HAS BEGUN

Mendon, Oct. 4.—The long period of drought we have passed through this summer is broken at last and we are getting an over abundance of moisture. It will be several days of good drying weather before the harvesting of beets can be resumed.

The sugar beet crop promises to be a good one. Those who have commenced digging find the tubers very fine indeed.

The long looked for day of better lights in the homes of Mendon people will soon be here. The Utah Power & Light Company have just finished unloading five cars of poles at the O. S. L. station which is about the required amount to bring the current from Wellsville and to pole the town. A system of street lighting will be installed which will be a great benefit.

The houses are being wired as fast as possible, so it is expected that everything will be ready for the current which will very likely be here some time in November.

There were scores of our townspeople attended the county fair, the weather being ideal and the fair being a good one the spirit of the people seems to be for a bigger and a better fair in 1917, the exhibits made by the county schools were worth the price although the season has been a poor one for many lines in fruit, yet there were some fine fruit at the fair. There were some fine exhibits from this ward and we hope that next year more will take part.

We hope that we shall have a few good days of sunshine so that we can go down and see the sights at the state fair. There will be quite a number of our people in Salt Lake during fair and conference week.

Miss Vessie Shelton is visiting in Malad with her sister Mrs. George Anderson.

Mr. and Mrs. Wilford Sorensen of Plymouth, spent Sunday in Mendon.

The Bee Hive girls held their closing exercises last Tuesday evening. A very nice program was rendered and the remainder of the time was spent in dancing and games, after which refreshments were served by the girls.

Miss Adella Lemmon is visiting with her brother in Star Valley.

Mrs. Joseph N. Sorensen is visiting with her mother Mrs. Agnes Richards.

Mrs. John Ladle who has been seriously ill for some time is reported to be improving.

Mrs. John Gardner has returned from Gooding, Idaho, where she has been visiting with her sister.

Mr. and Mrs. James Hill have gone to Star Valley to spend the winter.

Miss Irma Bird has gone to Salt Lake City for a month's stay.

## Coconut Tree's Blossom.

The blossom of the coconut tree is not unlike a head of cauliflower and is esteemed very much as the "cabbage" of the cabbage palmetto, which grows to some extent in Florida. The coconut blossom is boiled or eaten raw with a salad dressing. From the blossom of the tree the natives also make a pleasant drink, soft when first made, but strongly intoxicating when fermented, and quite often it is allowed to ferment. By one treatment of this flower-liquor it is also made into a native vinegar.

## Great Poets.

There have, of course, been many fine poets, writers of beautiful sentiments in beautiful numbers; but the supreme great poets may be counted on the fingers of the two hands. England and Scotland lead the world in great poets, having, perhaps, a half dozen, while the other countries can show hardly more than one each, and some of them not even one.

## His Business.

"She's a married woman and yet she lets another woman's husband flatter her." "Shocking! Tell me, who is the man?" "A photographer."

## Daily Thought.

The one best provision for the future is the best possible use of the present.—Whittier.

## Worse Luck!

Men who are too lazy to work and too proud to beg are usually too indifferent to die.—Judge.

It pays to advertise—try it!

## The New York World's Estimate of Mr. Hughes

Charles E. Hughes

His nomination for mayor, first suggested by the World, reflects credit upon the Republican City campaign. The extraordinary service which Mr. Hughes has rendered to the cause of truth and justice in awakening the moral sense of the nation against the crimes of cupidity and of trust betrayed must make a far search for a parallel. He represents . . . opposition to the corruption of bossism, and of implacable hostility to financial crimes, in the interest of public and general welfare the World hopes that Mr. Hughes will accept.—October 8, 1905.

A Man Like Hughes

The sacrifice was too great. The World regrets that Mr. Hughes is

not free to make the race, but neither his refusal nor the brevity of the time remaining alters by one iota the basic fact. The mayor of New York ought to be of the Hughes type. He would let light into all the dark and secret and festering places of loot and plunder. He would drive grafters and parasites from the City Hall. He would destroy the alliance between the public service corporations and the City government. There would be no McAdams; there would be a better police department and a better protection to homes. New York needs such a mayor.—October 10, 1905.

He is still Hughes to the line, let the chips fall where they may.—October 11, 1905.

## GET ACQUAINTED B. Y. C. DANCING PARTY IS HELD

The first dancing party of the year—the get acquainted party of the B. Y. C. College was held in the Auditorium on Monday evening. In spite of the down pour of rain, in spite of the previous three day down pour, the students 650 strong with their friends filled the dance hall with jolly happy-to-get back students. The music, the congenial atmosphere, the frappe furnished by the faculty all combined into one big evening of enjoyment.

The rush in registration has somewhat abated. Possibly most of the students are in. Six hundred and fifty-four is the card number carried by the latest registered student. Some statistics of the College class reveal interesting facts. There are fifty-three registered in the fifth and sixth year classes. There are, in previous registration, eight Colleges and high schools represented and four states. In addition to the students graduated from the B. Y. C. high school courses there are students from the O. S. A., the Box Elder High School, North Cache High, Spanish Fork High, Summit Stake Academy, Snowflake Academy, and the U. A. C.

Prof. Otto furnished two selections on the violin for Devotional. Tuesday and Prof. Bjarnason occupied the period on Wednesday. He discussed the things that endure.

To provide for the excess of students in the business course new sections have been added in bookkeeping and typewriting.

## Well-Bred Girl.

The other day we saw a young girl, seventeen or eighteen perhaps, listening quietly and attentively while her father told a story she had heard often. One sees so much inattention and sniffling depreciation of father's or mother's hobbies that it was a pleasant thing. We credit that little lady with far more than mere good training—with the right kind of heart. For truly good manners mean more than technique; they bespeak the true man and the true woman, too.—Exchange.

We have some old newspapers we are selling for 5c a bundle, just the thing to start the fire with.

## HOW ABOUT LOWER TAXES?

The local Democrats are having a hard time just now to justify their statements made in county convention that the taxes in Cache county had been lowered by the present commissioners. There is at least one candidate on the Democratic ticket who says, in view of the fact that the tax notices have recently been mailed out, that he wishes these notices could have been held until after the election. He is fearful that the people will detect the wide discrepancy between the statements and the actual facts.

Mr. Taxpayer, in all fairness, have you ever seen your taxes as high as they are this year? Look at your tax notices and compare them with previous years. If you find your taxes lower, just put it down that you are among the favored few, and it seems that we have the "favored few" in this administration, when comparisons are made of assessments over the county.

Get down to real facts, Mr. Taxpayer, when your Democratic neighbor begins to tell you of the economical administration which has been given this county. Cast about and see if you have anything that would justify such an increase in your taxes.

## MR. ASHLOCK NEW MANAGER HOTEL LOGAN

Frank L. Ashlock, chief clerk at the Hotel Utah, for the past two years has accepted the management of the Hotel Logan and took charge of the

FRANK L. ASHLOCK

local hostelry on Monday of this week, succeeding A. M. Stewart who has taken a lease on the Hermitage.

Mr. Ashlock, besides being a fine gentleman, a good booster and a live wire, a man who will impress himself upon the business men of the town as the right kind of a man to represent them at as important a post as the Hotel Logan, is also a man of wide experience in the hotel business.

Mr. Ashlock is a native of Kansas City where he was employed in hotel work prior to going to Oklahoma City. At the latter place he was employed at the desk of the Lee Hutchins Hotel for five years. The Lee Hutchins is a hotel which compares favorably with the Hotel Utah in size and reputation. From Oklahoma City he came direct to the Hotel Utah where he has enjoyed the good will of all the commercial men and has had the confidence of the Hotel Utah management who give him the best of recommendations.

We are glad to welcome Mr. Ashlock to our city and bespeak for him unbounded success.

## COST OF LIVING IS STEADILY RISING

Prices Paid Producers of Farm Products Increased 9.3 Per Cent In August

Washington, Oct. 3.—Marked increase in the cost of living is shown in the rising tendency of prices of foodstuffs October 1, reports of which are being received at the department of agriculture from the principal markets of the country.

Prices paid to producers of farm products increased 9.3 per cent during August, while the last eight years these prices have shown a decrease of about 2.1 per cent during that month. September began with the index figures of these prices 21.9 per cent higher than it was a year ago.

Butter was selling about 12 per cent higher than a year ago, according to the latest statistics available today at the department of agriculture. The price was 1 cent a pound higher than it had been in the last eight years at this time of the year.

Eggs were selling 5 cents a dozen higher than last year, but were lower for the period than in several of the last eight years.

Potatoes were selling 115 per cent higher than a year ago.

Cheese showed an increase in price of more than 23 per cent over one year ago, and was higher than it had been in the last eight years, being a half cent a pound more than the highest price in these years.

Hogs were selling 25 per cent higher than a year ago; beef cattle more than 7 per cent higher; veal calves more than 10 per cent higher; sheep more than 8 per cent higher and lambs more than 20 per cent higher.

Beans show an increase of more than 70 per cent over a year ago because of the short crop. Onions are more than 50 per cent higher, and cabbages more than 40 per cent higher.

Keep Utah money in Utah.

## THE STRONGER LOVE AT LYRIC FRI. AND SAT.

On Thunder Mountain lived Nell Serviss, a wild flower of surpassing beauty.

The Servisses were "at feud" with the Rutherfords, who lived on the other side of the mountain. James Serviss, a cool, clear eyed young mountaineer was the leader of his clan and between Jim and Nell Serviss was a sort of mountain betrothal for Jim loved Nell with all his heart. Tom Serviss, his vicious, worthless brother also loved Nell and persistently annoyed her with his attentions.

One day a handsome stranger from the city, that distant fairyland came into this little world and went to live with the Rutherfords. A humorous accident made Nell and the newcomer acquainted. Each day the stranger wandered over the mountains examining the rock and chipping it with a little hammer. His actions puzzled the moonshining mountaineers, who suspected him of being a revenoer.

Nell Serviss and the newcomer became close friends and this friendship soon grew into something deeper and stronger. Learning of his search for radium ore, Nell showed the man a rich deposit near the Serviss moonshine still. Shortly afterwards, on the night of the dance in the school house, the still was burned by the revenue officers. The newcomer was suspected and the Servisses started in the morning to get him.

Nell dashed through the forest to warn her friend, with evil minded Tom Serviss in pursuit. But her friends, the mountains punished Tom in their own fashion and Nell arrived at the Rutherford's cabin in the nick of time. Rutherford then faced Serviss and in a sacrifice few women have ever been called upon to make little Nell of Thunder Mountain humiliated herself that another might be saved and by so doing she triumphed in The Stronger Love, that lifted her higher than the mountain peaks.

## SAVAGE TIRE FACTORY BRANCH FOR THIS CITY

Logan has attracted another business house. It is a branch of The Savage Tire Co., of San Diego, California, located at 126 North Main street next to the American Express Co., office. Mr. B. B. Wallick is the manager.

In addition to a complete line of the famous Savage tires and tubes, this concern will carry a complete line of automobile accessories the same lines carried by the Intermountain Electric Co.

A general auto upholstery, top repairing, seat covering and vulcanizing business will be done. A stock of oils and gasoline will also be carried.

Mr. Wallace the manager, is not a stranger here claiming Logan as his home town, having been born here. He is a son of Dr. D. L. Wallick who practiced dentistry here years ago, and who is now a practicing physician at Provo, Utah. Mrs. Wallick will join her husband here and they will make Logan their home.

In speaking of The Savage Tire, Mr. Wallick says: "Our tires have a mileage guarantee as great as that of any tire on the market and if patrons care to test them they can put on a 'Savage' side by side with any tire of the same grade, and if the Savage does not give more mileage per dollar cost, we will adjust on the basis of the other make."

This is not a jobbing house, but a factory branch and sells direct to the consumer.

We welcome Mr. Wallick and Savage tire branch to the business fraternity of Logan, and wish them the same prosperity enjoyed by other business houses here.

## One of Life's Sad Things.

When opportunity comes along in the form of a nice young girl the chances are that some other fellow has already embraced it.
